

**REMARKS**

A Request for Continued Examination and a Preliminary Request for Reconsideration were filed on March 20, 2006.

Claims 1-10 and 20-30 are all the claims presently pending in the application.

New claim 30 is added to provide more varied protection for the present invention and to raise a new issue for the Examiner's consideration, thereby to preclude a first-action final rejection. The combination of claim 30 has not been presented earlier.

Claim 26 is amended merely to correct a minor spelling error.

No new matter is added.

Applicant respectfully submits that there are elements of claim 30 which are not disclosed or suggested by the prior art of record, for at least the same reasons set forth in the Preliminary Request for Reconsideration, which was filed on March 20, 2006 and is incorporated herein by reference in its entirety.

Therefore, the Examiner respectfully is requested to permit claim 30 to pass to immediate allowance.

**CONCLUSION**

In view of the foregoing, Applicant submits that claims 1-10 and 20-30, all the claims presently pending in the application, are patentably distinct over the prior art of record and are in condition for allowance. The Examiner is respectfully requested to pass the above application to issue at the earliest possible time.

Should the Examiner find the application to be other than in condition for allowance, the Examiner is requested to contact the undersigned at the local telephone number listed below to discuss any other changes deemed necessary in a telephonic or personal interview.
